DID YOU HEAR?

NATIONAL POOL TILE IS NOW
NATIONAL POOL TRENDS,
AND IT'S ABOUT TO CHANGE THE GAME!

Our *new* name reflects the evolution of NPT® into a lifestyle brand - one that connects with homeowners and gives builders a brand they're proud to represent.

Today, NPT® offers everything needed to create the *complete* backyard - from tile and pool finishes to hardscapes, lighting and accessories.

What started with pool tile has grown into so much more.
We're setting the *trends* that define outdoor living.

Pool Finish

The secret to having

Beautiful Pool Water

is selecting the right interior pool finish for you.

Ask your builder to show you other pools in your area

and samples of various finishes to help you with your decision.

First, Decide...

whether you would like the water in your pool to appear blue or green.

For water that looks primarily blue,

select a finish with white, blue or gray pigment.

For water that appears green,

look for green, tan, brown or black pigment.

Achieve
DEEP, RICH WATER COLOR.
{ 9 Feet Deep }
{ 4 Feet Deep }

The Darker Your Finish,

the darker your pool water will be.

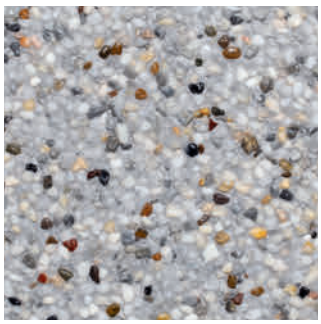

The deeper the water, the darker it will appear.

Water will seem lighter in shallower areas like steps, ledges, benches, and beach entries where the finish itself is more visible.

Beauty, More than Surface Deep...

To achieve a deep, rich water color in a pool without a deep end, select a dark colored pool finish.

Your pool's depth has a huge impact on the color of your water.

Your pool may actually appear deeper when you select a finish with a darker pigment.

Mirror
YOUR SURROUNDINGS.

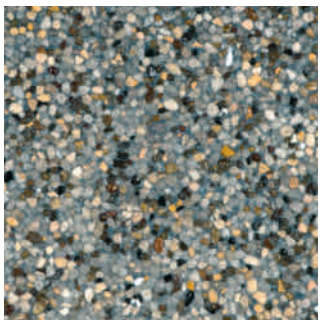

Since Your Pool Water will mirror its surroundings, many other factors will impact water color.

- The design, shape, and depth of your pool
- The time of day and position of the sun
- Whether the sky is sunny, stormy, or overcast
- Your region of the country
- The chemistry of your water
- Landscaping, trees, bushes, and other foliage
- Colors in your home's exterior

Polished Marble and Glass Aggregates

When selecting your pool finish, Texture Should Be Considered in addition to color.

With six types of finish to choose from, NPT Pool finishes feature aggregates in a range of sizes and smoothness to choose from.

- For the sensation of swimming in a pool of rare gems, reflect on the glass beads of JewelScapes®.
- For a remarkably smooth, long-lasting finish, look no further than PolishedScapes®.
- Our most popular, durable finish, StoneScapes®, offers an array of pebble sizes – micro, mini, or regular.
- Combine stunning, smooth glass beads with any size pebbles for a dramatic, custom look all your own.
- For the enduring splendor of a smooth quartz finish, select QuartzScapes® or ColorScapes®.
- If purely deep, rich color is what you desire, consider PlasterScapes®.

Subtle Changes

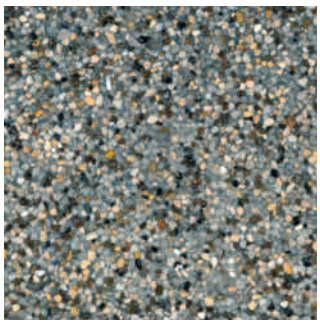

in the appearance,
created by the play
of sunlight and shade,
are part of the

INHERENT BEAUTY
of your pool finish.

The color of your
Pool Water will be

Uniquely Yours.
